The food contact compliance for these applications was determined as recorded in the Regulation (EU) 10/2011. All tests are performed for room temperature applications* and are only valid for applications at this temperature.

The Comfort Clear Premium Pipingbags was tested with the following simulants:

Simulant	Description	Tested
A	Ethanol 10%	✓
B	Acetic acid 3%	✓
C	Ethanol 20%	
D1	Ethanol 50%	
D2	Olive oil	✓

* = Test are carried out at 40°C - 10d. Testing for 10 days at 40 °C shall cover all storage times at refrigerated and frozen conditions including heating up to 70 °C for up to 2 hours, or heating up to 100 °C for up to 15 minutes. To demonstrate compliance with the overall migration limit for all type of foods testing in distilled water or water of equivalent quality or food simulant A and food simulant B and simulant D2 shall be performed.

Certificate for food-applications

Dual Use Substances (Food additives) and/or SML-restrictions for

Comfort Clear Premium Pipingbags

made from a multilayer PolyEthylene (PE)

PM REF N/CAS	SML in mg/ kg food	Dual-use
111-66-0	15	No
2082-79-3	6	No

In the theoretical situation that the total amount of all the substances present in the film should migrate to the packed product (worst case scenario) the specific migration limits for these substances are not exceeded. Calculations are based on 6 dm² film which is according to Regulation (EU) 10/2011 the standard quantity to pack 1 kg food and on 100 µm film.

We also declare, that in case of a printed item, the used ink is always printed on the outer side of the product and is in compliance with regulation EU 1935/2004.
