

Broccoli Cuts

More Taste, Less Waste

To address the significant food waste that comes from discarding broccoli stems, our innovative team has created a new **broccoli mix** featuring both **tender florets** and **nutritious stems**. By including all edible parts of the broccoli, we've reduced food waste by up to **33%** compared to traditional floret-only mixes. Not only does this mean **less waste**, but also fewer **CO₂** emissions and less water usage per kilogram—making our **fresh frozen broccoli cuts** a truly **sustainable choice**.

Why Choose Broccoli Cuts With Stems and Florets?

- **Full Flavour and Nutrition:** Stems offer a mild sweetness, while florets provide that classic broccoli taste and texture.
- **Less Environmental Impact:** This **sustainable broccoli mix** uses fewer resources, helping you reduce your carbon footprint.
- **Convenient Meal Solutions:** Ready to cook straight from the freezer, our **healthy broccoli cuts** fit seamlessly into any meal plan.

How Our Broccoli Mix Delivers “More Taste, Less Waste”

- **Reduced Waste:** Using both stems and florets ensures less edible produce is thrown away.
- **Lower CO₂ Emissions:** Fewer stems go unused, cutting back the energy and water needed per kilogram.
- **High Quality, Fresh Taste:** Our **fresh frozen vegetables** lock in taste, colour, and nutritional value—so you can serve wholesome meals all year round.
