MICROBIOLOGICAL DATA

This product is commercially sterile.

"Commercial sterility means the absence of microorganisms capable of growing in the food at normal non-refrigerated conditions at which the food is likely to be held during manufacture, distribution and storage"

(Ref: Codex Alimentarius Commission (WHO/FAO) CAC/RCP 40-1993)

RISKS AND HAZARDS

All products which are traded by Gloe & Zeitz meet legislations which are applicable for the product groups. Besides this, the products also meet all legislations which are applicable for food products in general. Gloe & Zeitz are required by the HACCP guideline to identify risks and to secure those risks.

Gloe & Zeitz monitor the quality and food safety of their (imported) products; possible risks are residue pesticide, heavy metals and chemical contamination.

Gloe & Zeitz put in their contracts with suppliers that all products must meet the applicable EU legislation.
