

Product information

TRYMAT ALL-IN-ONE

Tab concentrate for machine dishwashing

- Phosphate-free formula with multifunctional action in just one tablet
- Powerful cleaning performance, reliable against tea, coffee, and food stains.
- Optimal drainage and shine results

Product description

TRYMAT ALL-IN-ONE is a powerful, phosphate-free dishwasher detergent in tablet form for commercial single-tank machines and household dishwashers. The compact formula combines all the functions required for complete dishwashing in one product: cleaning performance, rinse aid, salt function, glass protection, stainless steel shine, machine care, descaling components, and silver protection. TRYMAT ALL-IN-ONE reliably removes tea, coffee, and food residues while preventing starch build-up on porcelain and plastics. The formulation supports a clean, hygienic cleaning process with low wastewater pollution and delivers clear, shiny results without additional products.

Area of application

For treating dishes in commercial single-tank and household dishwashers. Not suitable for short-cycle dishwashers. For very hard water, use additional rinse aid (PRESTAN KLAR FORTE) and special salt.

Application

TRYMAT ALL-IN-ONE is added manually to the dosing chamber of the dishwasher.

Application instructions

Storage: only in the original sealed container, cool, dry, well ventilated and protected from sunlight

Storage temperature: 5°C to 40°C
