

PowerInox

Steel scouring pad for the toughest kitchen grime.

Product Description

The chemical-resistant steel scouring pad made of stainless steel is an excellent choice for kitchen use. The stainless steel wire is embedded in a knitted polyester fabric. The PowerInox core is made of polyurethane foam.

Application Area

The steel scouring pad effectively removes heavy and stubborn dirt, for example from pots and pans. The product is most commonly used in kitchens, hotels, catering services, and cafeterias.

Product Benefits

✓ **Effective in use** – Efficiently and easily removes tough stains such as stubborn and burnt-on dirt, food residues, and grease from pots and pans. Particle shedding is minimal.

✓ **Easy to use** – Easy to rinse thanks to its knitted structure. The foam core inside absorbs both water and soapy water effectively. Fits comfortably in the hand. PowerInox retains its shape during scrubbing thanks to its special structure.

How to Use

PowerInox is intended to be used wet. Rinse the sponge by hand under running water and allow it to dry after use. The product can be washed in a dishwasher.

Test the product on a smaller/hidden area before use. For hygiene reasons, it is recommended to replace the product regularly.
