PRODUCT	72333 Grahamkex Oat biscuits 225g		
CERTIFICATION PROGRAMS	Products on special certification programs shall be checked thoroughly on the requirements in this programs like claims and special mentionings. At this moment special certification programs are: - Organic (Bio) - RSPO (sustainable palm oil) - Rainforest Alliance (cocoa products) - Fairtrade (cocoa products)		
DISCLAIMER	This product is intended to be sold in the European Union. Biscuit International does not guarantee the product conformity (including in particular with regards to ingredients, nutritional information and labelling information) for any other country. Please make sure to contact us with any specific product requirement if you intend to market this product outside of the European Union.		
GENETIC MODIFIED INGREDIENTS	The components of these product do not contain and are not derived from genetically modified organisms. Due to the ubiquitous presence of GMO organisms, absence of minor traces of GMO material cannot be guaranteed, but in any case, the content of GMO material in any of the above mentioned ingredients will be below 0.9%, in accordance to EU guidelines 1830/2003 and 1829/2003.		
RADIATION	Our products and used raw materials are not radiated.		
NUTRITIONAL CLAIMS	On using nutritional claims there should be the nutritional value(s) on the text panel - other claim types are not allowed.		
PRODUCT DATA	Diameter: 70 mm ± 5 mm Height: 7 mm ± 3 mm number of articles per unit: approx. 18 average weight per article: approx. 12,5 g		
CODING	best before date: day-month-year (11-01-2010) (optional: time stamp) Lot code: PYYDDDL P = letter production site, Y = last two digits of year, D = Julian date code (day of year), L = line code Example: production day 03rd May 2012 will read: lot code: P 12123 L		

PRODUCT	72333 Grahamkex Oat biscuits 225g	
SHELF-LIFE	12 Months	
STORAGE CONDITIONS	Store in a cool, dry place	
STORAGE ADVISE	temperature: < 25 C once opened: max 1 day, if not stored after opening in a closed container (otherwise product quality degrades)	
MICRO-BIOLOGICAL	total plate count: yeast/ moulds: entrobacteriaceae: listeria monocytogenes: staphylococcus aureus: salmonella:	<5000 cfu/g <400 cfu/g <10 cfu/g <100 cfu/g <10 cfu/g Not detected in 25 g
QUALITY GUARANTEE		
QUALITY GUARANTEE	The quality guarantee is established in the quality system of the production plant, where - according to the BRC, IFS - the subjoined subjects are controlled: - the manufacturing and packing is established in working instructions and inspections on fixed standards - there are fixed procedures for: * correcting measures; * treatment of products with shortcomings; * settlements of complaints. - hygiene level by means of cleaning schemes and schemes for vermin abatement; - periodical audits of the quality system by the Central quality Department and external authorities; - HACCP forms a part of the quality system and is as such established in the system.	
HYGIENE	By means of cleaning schemes and schemes for vermin abatement the hygiene level is monitored. Also periodical inspections take place by both internal and external experts.	

PRODUCT	72333 Grahamkex Oat biscuits 225g
----------------	-----------------------------------

QUALITY GUARANTEE (continuation)

ENVIRONMENT	Concerning the environment there is an Environmental Policy Plan in which subjects like control of waste flows are under discussion.
QUALITY CONTROL	The quality inspections are established in the quality system, amongst other things this implies that the input-, manufacturing- and final controls are established in the quality system. Herewith also the traceability of the product is guaranteed.
MICRO BIOLOGICAL RESEARCH	In view of the nature of the products there is no microbiological research during the manufacturing process. At least once a year the finished product is microbiological tested.
ORGANOLEPTIC EXAMINATION	By way of an internal selected and trained taste panel our products are regularly tested on taste in connection with the tenability of the products. At least on every shift there are two taste tests on the finished products.
HACCP	As instructed by the European Food and Drugs Act, HACCP as a control system constitutes part of the total quality control system.
LEGISLATION	Our products fulfill the EC legislation concerning heavy metals, mycotoxins, contaminants.
